

License & Compliance Documentation

Insurance & Bond Disclosure

— Bonding & Coverage Statement —

Bonding

California First Roofing maintains the contractor surety bond required by the CSLB for active license holders. The bond exists to protect homeowners against certain financial losses caused by contractor misconduct and is a condition of lawful contracting in California.

General Liability Insurance

We maintain general liability insurance coverage appropriate for residential and commercial roofing operations. Proof of coverage is available to members, property owners, and project stakeholders upon written request.

What This Means for Members

- The company is licensed to perform the work described in your Bear Protection Plan agreement.
- Required bonds are active and maintained as a condition of licensure.
- Liability coverage protects against covered incidents during inspections and repairs.
- Members may request a certificate of insurance or bond information for their records.

Request Proof of Coverage

To receive a current certificate of insurance, bond verification, or coverage details, contact our Los Angeles office or submit a request through the contact form at www.getbearplan.com/contact.

This disclosure is a summary of bonding and insurance practices. Specific coverage limits and terms are subject to current carrier policies and are provided upon written request.
